FAST TIME ON SOUTHERN ROAD.

Ninety-four Miles an Hour Reached on Illinois Central.

New Orleans, Oct. 14.—Ninety 100 general passenger agents from all parts of the country who arrived here on a special Illinois Central train to attend the forty-eighth annual convention of the American Association of Passenger and Ticket Agents had a record breaking ride.

The run was the most remarkable in the history of southern railroads. One hundred and eighty-nine miles were made in 187 minutes, 165 miles in 96 minutes, including stops, and 396 miles in 429 minutes, exclusive of stops. At times, and for short distances of one mile and under, the speed indicator in the observation car registered 94 miles per hour. According to recent speed tests made by the Pennsylvania railroad, this is within six-tenths of a mile of being as fast as it is possible to run a modern steam passenger train.

The train was composed of engine, buffet, library car, dining car, five standard Pullmans and an observation car. The total weight of the train was about 551 tons.
